guarantee brochure.

### Renew your favourite sofa

KLIPPAN is a popular classic. It has durable metal springs, which give the sofa its springy comfort, and a design that match most homes. The fabric sofa comes with the frame unassembled, making the package smaller and easier for you to transport home. Most of the covers are washable and also sold separately – you may want to buy a few so you can change whenever the mood strikes you. The coated fabric sofa has a fixed cover and comes fully assembled in one package.

### Sofa for everyone

The durable metal springs give the sofa its springy comfort and ensure the seat will have a long, full life. If you want extra cosy moments in KLIPPAN, add pillows, blankets – and whatever else you like.

All the products (shown here) may not be available at the store. Please contact the staff or look at [www.IKEA.com.cy](http://www.IKEA.com.cy) for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

# GOOD TO KNOW

## Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

## Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

|  | Washing instructions      | Resistance to abrasion (cycles) | Light-fastness (1-8) |
|--|---------------------------|---------------------------------|----------------------|
| VISSE: 100% polyester. A dope-dyed cover, in a durable material with a soft feel, smooth weave and a nice two-tone effect. | Machine washable at 40°C. | 50,000                          | 5                    |
| KABUSA: Plain weave. 100% polyester.   | Machine washable at 40°C. | 25,000                          | 5                    |

## Coated fabric

Coated fabric is a fabric material with a coating, which can be embossed to look like leather. It's a strong and durable material and very easy to care for – just vacuum the surface using the soft brush attachment on your vacuum cleaner and wipe with a damp cloth.

All our different coated fabrics have been treated to protect them and make them easy for you to look after. All have also been tested and approved for tear strength, flexibility and colour fastness, so you can be sure you will enjoy your new sofa for many years to come.

|   | Care instructions   | Resistance to abrasion (cycles) | Light-fastness (1-8) |
|---|---|---------------------------------|----------------------|
| BOMSTAD: A durable, fixed, coated fabric cover with a base of cotton and polyester and with a polyurethane surface coating. The cover has a similar look and feel to leather and is very easy to look after and keep clean. | Vacuum clean with the soft brush attachment and wipe with a damp cloth. | 50,000                          | 5                    |
