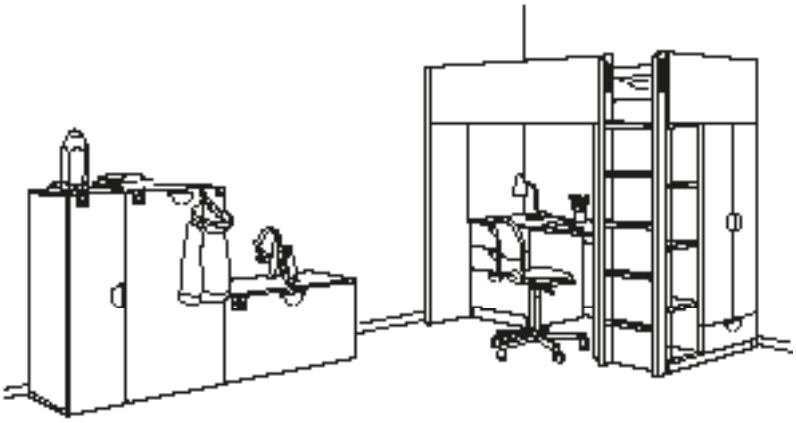
SMÅSTAD

System

Safety

Children are curious and imaginative and can sometimes be difficult to predict. That's why we always perform risk analyses and test our children's furniture to ensure the pieces are suitable for children. Don't forget to use the included safety fittings and secure furniture properly to the wall which has a height of 60 cm or more.



Storage for growing children
SMÅSTAD is a storage system developed based on the child's perspective. We want to make it easier and more fun to get dressed on their own and keep things organised. After all, children are not small-sized adults, they interact with their surroundings differently and are also constantly developing. The system comprises of a changing table, bench, loft bed with a desk, as well as various wardrobes and chests of drawers. Smart accessories will help you easily update the pieces of furniture so that they keep up with the times over many years – making them a little kinder to your wallet.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.com.cy for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

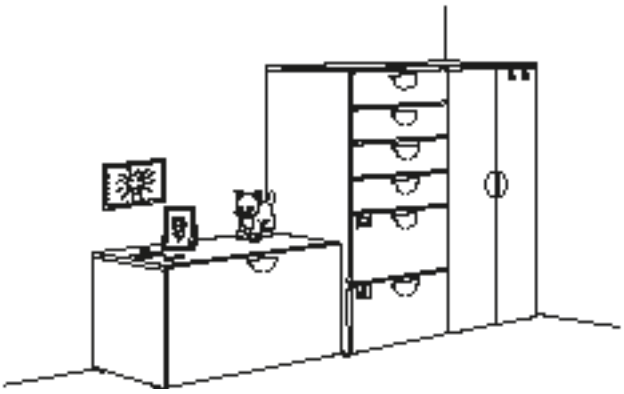
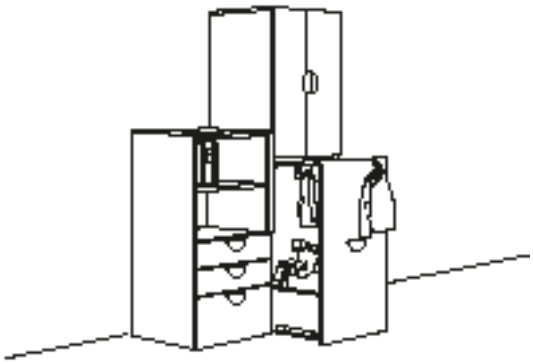
SMÅSTAD grows with your child

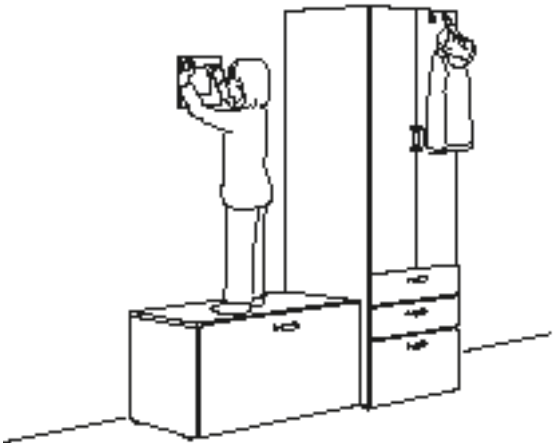
Smart solutions for limited space
Children grow, but the space at home doesn't always get bigger. With SMÅSTAD you can maximise the use of space since the units can be used in different ways and also change over time. SMÅSTAD loft bed turns into a room within the room – with a desk, shelves and a wardrobe. SMÅSTAD changing table can grow with the child and eventually transforms into a desk.



Endless possibilities
SMÅSTAD is a super flexible system. You can choose between different frames, fronts, handles, details and accessories to create a combination that suits the needs and space at home. If you don't want to fully plan the storage, we offer a selection of ready-made combinations that you can easily take home with you right away.



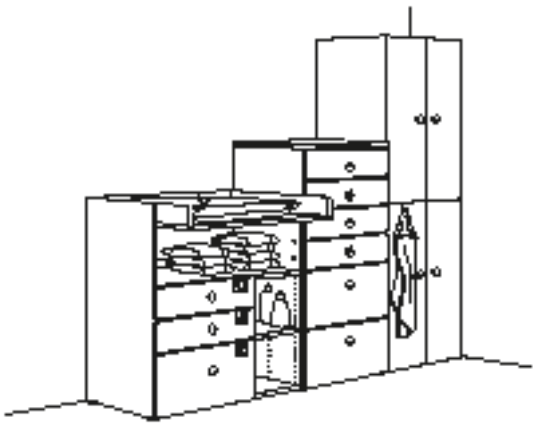
Designed for children
When we developed the SMÅSTAD storage system, we based it on the needs of children's and how they're constantly evolving. With features like hooks at a height that's just right, it will be easier for them to take down and hang up their clothes on their own instead of the clothes ending up in a pile on the floor. Children's needs are also about safety. SMÅSTAD has soft edges, rounded corners and the door hinges have built-in dampers that reduce the risk of small fingers being jammed.



Safety and maintenance
Children rarely do what we adults expect. They play and use things in ways that can be difficult to predict, so that's why we perform risk analyses and safety tests for all of our children's furniture. For pieces of furniture with a height 60 cm or more, you also need to ensure an important safety measure: follow the assembly instructions and anchor the furniture to the wall with the included safety fittings to prevent it from tipping over. You clean the frames and fronts of the furniture with a damp cloth and mild detergent, then wipe dry with a clean cloth.

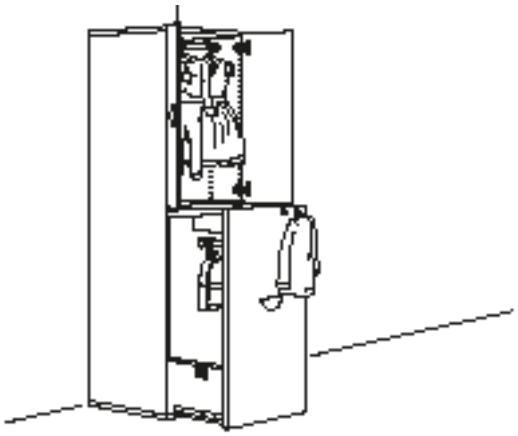
Good to know

Living with children is a world of constant change – something most parents around the globe probably agree with. That's why we made SMÅSTAD as flexible and changeable as possible. Then the storage furniture can keep up with the times and change based on the child's age and needs.



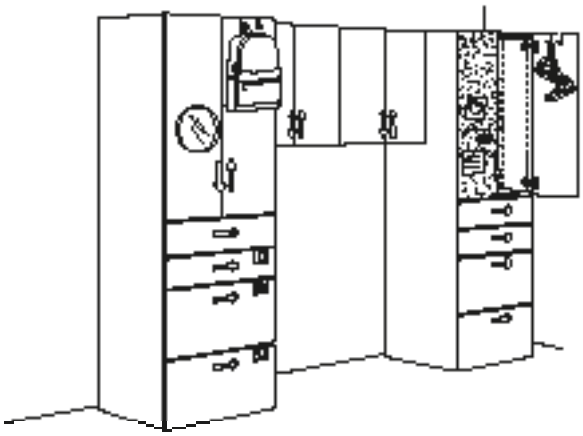
Ages 0-2 years – calm start with safe routines

With a combination of SMÅSTAD changing table and storage, you can create a cosy, safe and practical place for changing diapers and storing clothes and other things related to caring for your baby. As your child develops and understands more of their surroundings, you can put up colourful pictures around the changing table and hang up a baby mobile that grabs their attention.



Ages 3-7 years – full speed ahead and a lot can-do spirit

The storage in SMÅSTAD can be divided into different levels. In the upper part you can hang garments that are not used every day, and in the lower part your child can reach just the right amount of clothes on hooks or in drawers. Being able to take responsibility for their things and get dressed on their own helps the child grow and feel independent.

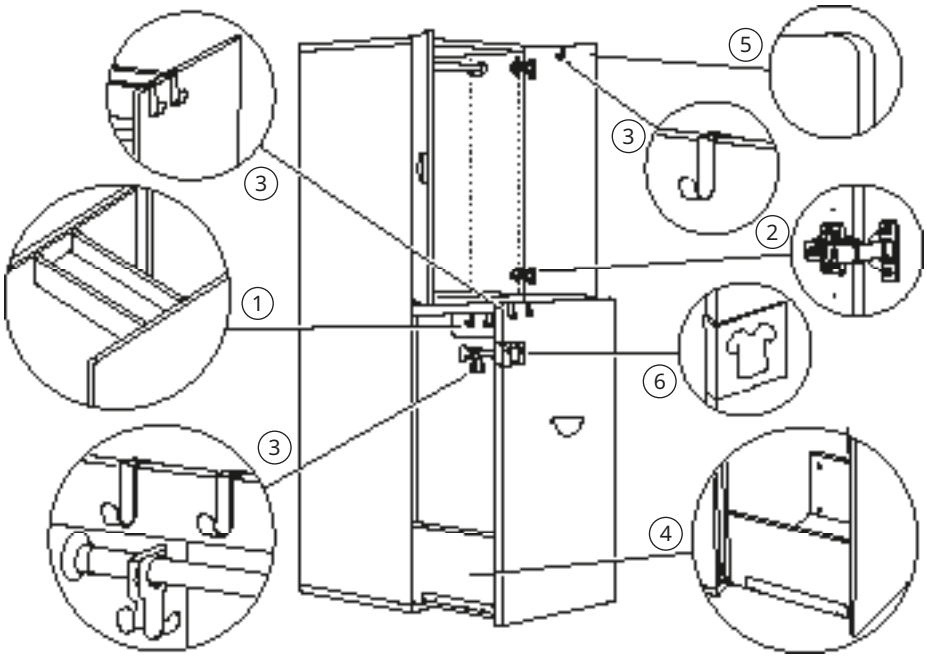


Ages 8-14 years – personality takes its prominent role

At this age, the child fully explores his or her identity and is happy to show it. That's why, among other things, we've created a cork door where they can freely display their style and interests – without the wall being dotted with holes. Use hooks on both the inside and outside of SMÅSTAD to make it faster to hang clothes, backpacks and other things that easily end up on the floor.

Good to know about the pull-out wardrobe

In the pull-out lower part of the wardrobe, your child has a full overview and can reach hooks and drawers from two sides. The hooks make it easy to both take down and hang clothes and other belongings up again. In the upper part you can store clothes and other things that are not used every day.



1. At the top there is a fixed drawer with space for all the small things that easily get displaced.
2. The hinges have built-in dampers so that the doors close softly and do not risk jamming any fingers.
3. Hooks on the inside and outside make it easier for your child to hang up clothes, backpacks and other things off the floor.
4. The high edges of the bottom are used to strengthen the structure, while also creating a storage box.
5. It hurts to hit a sharp edge. That’s why the corners of all doors and drawers in SMÅSTAD are softly rounded.
6. With symbols in HÄNGIG label holder, it will be easier for both children and adults to organise the insides of drawers and wardrobes

How to build SMÅSTAD

We have a wide range of ready-made SMÅSTAD combinations to choose from. You can find them in the store or on our website at www.IKEA.com.cy If you like, you can adapt the ready-made combination to better suit your needs and style. Use SMÅSTAD planning tool to change the interior or the size of your storage solution. You can also use the planning tool to customise your own unique SMÅSTAD combination from scratch.

Here we illustrate the process with the example of the storage solution with pull-out.

There are four simple steps to follow:

1. Choose frames based on your needs and how much space there is in the room.
2. Choose the style of doors and drawer fronts. Does it look best with neutral white or a colour?
3. When planning the interior of your SMÅSTAD, it is good to first think about what the daily routines are like and what needs to be stored. Complete the wardrobe with drawers, wire baskets, hooks and other details from our wide range of accessories.
4. Think about which handles or knobs you want on the doors and drawer fronts. Choose from our various options to create the style you want.

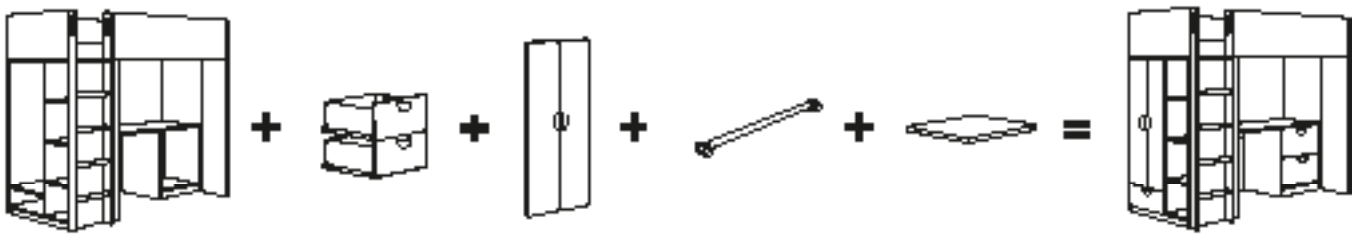
SMÅSTAD loft bed with desk and storage

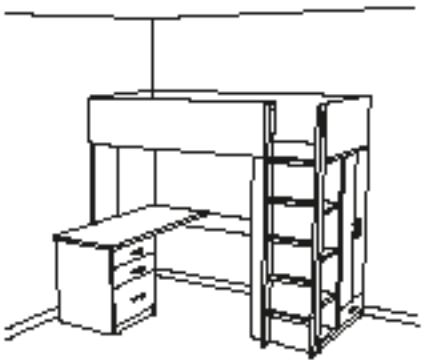


The illustrations below show how SMÅSTAD loft bed can be assembled in several different ways depending on the shape of room and the needs. Add doors, drawers and details based on your needs and style. The smart cable management of the desk adds to the orderliness. The non-slip ladder has space for hands at the edges of each step and two handles at the top make it easy to climb up and down.

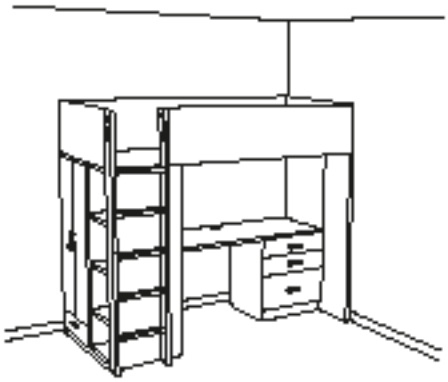
- Bunk and loft beds are recommended for children from the age of 6 years.
- Minimum ceiling height is 240 cm.
- We recommend a mattress that is max. 20 cm thick.
- The ladder can be mounted on the right or the left side of the bed.

The desk is mounted parallel to the bed and the wardrobe doors are on the outside. If you mount your SMÅSTAD loft bed like this, with the wardrobe doors on the outside, you have a perfect space for the desk under the bed.
Overall dimensions: 206×104×182 cm

The desk is mounted perpendicular to the bed and the wardrobe doors are on the inside. If space in the room is tight, you can mount the desk perpendicular to the bed, with the wardrobe doors so that they open from the inside.
Overall dimensions: 206×148×182 cm



The desk is mounted perpendicular to the bed and the wardrobe doors are on the outside. If the space in the room is very generous, you can choose to mount the desk perpendicular to the bed, with the wardrobe doors so that they are accessed from the outside.
Overall dimensions: 206×148×182 cm



The ladder is mounted to the left of the bed. SMÅSTAD loft bed becomes even more flexible thanks to it being possible to mount the ladder on either the right or the left side of the bed. Choose the solution that best suits your room and your needs.
Overall dimensions: 206×104×182 cm
